IPL Dataset Case Study

Dataset Link- 📗 **IPL Dataset**

Problem Statement-

You have been provided with the IPL Dataset. Go through the data set carefully and answer the questions listed below, which will eventually guide you and give you some insights about the same.

Before proceeding with solving the questions, make sure you follow the data processing step mentioned below. (In the same excel sheet)
You have been provided with a IPL Dataset, but it has similar teams with multiple name, for example Rising Pune Supergiants, Rising Pune Supergiant & Pune Warriors. In order to remove redundancy from the dataset change the name of

- Rising Pune Supergiant, Pune Warriors => Rising Pune Supergiants
- Delhi Capitals => Delhi Daredevils

At the end submit the final dashboard which will be created while solving the questions given in the next section.

Submissions-

1. PDF document containing the dashboard created (Download as pdf from the profile)
   (Name it **"Dashboard_StudentName")**
